Scent Your Rare Brilliance

Inspiration of Intime Perfume Fine Jewellery

“As an Asian perfumer with a decade of scent artistry, I’ve seen how a signature fragrance can elevate one’s essence, weaving cherished memories and emotions into a profound expression of self. Though intangible and fleeting, perfume is a powerful art form that lingers in the heart.

Inspired by the evocative power of scent, I collaborated with skilled artistic jewellers to create Intime Perfume Fine Jewellery, blending exquisite craftsmanship with enduring fragrance. Our uniquely designed non-alcoholic Intime Perfume Concentrate, gentle yet rich and enduring, fostering deep connections with memories and lasting joy.

Blending visible craftsmanship with invisible fragrance, striving for sustainability with natural gemstones and lab-grown diamonds, and harmonizing rare brilliance with subtle fragrance, Intime crafts eternal beauty and elegance. This fusion of contrasts redefines luxury as a personal, multi-sensory legacy.”

Angel Cheung

Story of Intime Perfume Fine Jewellery

A Token of Love

With “Scent Your Rare Brilliance,” each 14K gold piece, adorned with rare natural gemstones and lab-grown diamonds, comes alive through its bespoke fragrance story. This ingeniously crafted scent, uniquely tailored to each piece, transforms the jewellery into a vessel of intimate connection. It whispers memories—a children’s gift to their mother, a mother’s legacy to her children, a lover’s enduring promise. Its timeless form endures as a treasure to be shared, but it is the fragrance that makes it a rare, radiant emblem of the bonds that define us.

Divine Blessing Collection
